

Illustration of realized operations in Steel industries

| No | Work Explanation | Site | Client |
|----|---|----------------|----------------|
| ۱ | Milling operation of the base plates on foundry machine in unit ۴ | Mobarake steel | Sms Damag |
| ۲ | Boring and removing operations on jammed pins of foundry machine in unit ۴ (۱۶ segments) | Mobarake steel | Sms Damag |
| ۳ | Lathing and threading operation on anchor bolts of foundry in unit ۴ | Mobarake steel | toga |
| ۴ | Lathing and threading operation on anchor bolts of foundry in unit ۴ | Mobarake steel | toga |
| ۵ | Grinding surface finishing and leveling operation on adjustment plates of foundry machine segment in unit ۴ | Mobarake steel | toga |
| ۶ | Milling operation of support segment on foundry machine in unite ۲ | Mobarake steel | toga |
| ۷ | Milling and leveling operation rails of foundry machine in unite ۲ | Mobarake steel | toga |
| ۸ | Milling and zinc spraying operations on finishing stands of hot rolling mill(f۱-f۴) | Isfahan | Mobarake steel |
| ۹ | Grinding operation on the collector of armature motors of cold rolling mill(۱ motors) | Isfahan | Mobarake steel |
| ۱۰ | Metal spraying and machining on the base of hot rolling mill stands | Isfahan | Mobarake steel |
| ۱۱ | Lathing and bushing on pinch roll lifting housings(۴ housings) | Isfahan | Mobarake steel |
| ۱۲ | Metal spraying and milling operations on wall and base of E۱ stand | Isfahan | Mobarake steel |
| ۱۳ | Reforming operation on m۳۰-m۱۲۰ threads with bushing and helicoil methods | Isfahan | Mobarake steel |
| ۱۴ | Machining and reforming operations on block balances area of E۱, R۳ stands | Isfahan | Mobarake steel |
| ۱۵ | Milling operation on the motor base- plate of regeneration unit | Isfahan | Mobarake steel |
| ۱۶ | Machining operation on the fan shaft of regeneration unit | Isfahan | Mobarake steel |
| ۱۷ | Machining and reforming operations on fan process shaft | Isfahan | Mobarake steel |
| ۱۸ | Reforming and boring operation on harrow machine | Mobarake steel | IRITECH co |
| ۱۹ | Lathing as well as reforming operation on the ۶۳۰t power-share pin holes unit ۵۰۰ | Isfahan | Zob ahan steel |
| ۲۰ | Milling operation in the T-nut segment support (unit ۵۰۰) | Isfahan | Zob ahan steel |

Illustration of realized operations in Steel industries

| | | | |
|----|---|------------|------------------------|
| ۲۱ | Milling operation on the cutting mould seating place of the ۶۳۰t power-share (unit ۰.۰) | Isfahan | Zob ahan steel |
| ۲۲ | Milling operation in support segment of power saw machine (unit ۶۰۰) | Isfahan | Zob ahan steel |
| ۲۳ | Welding and milling operations on monbolock gearbox (unit ۳۰۰) | Isfahan | Zob ahan steel |
| ۲۴ | Machining operation on ۳۰t crane pins | Isfahan | Zob ahan steel |
| ۲۵ | Lathing operation on hook pin location of ۲۷۵t crane steel making section | Ahwaz | Khouzestan steel |
| ۲۶ | Grinding operation on ۲۷۵t crane drum gear seating place | Ahwaz | Khouzestan steel |
| ۲۷ | Machining operation on pin and bolt place of couldron | Ahwaz | Khouzestan steel |
| ۲۸ | Lathing and threading operations on M۷۲ anchor of bloom making unit using a very rapid method | Ahwaz | Fanavaran sanaye |
| ۲۹ | Lathing and grinding operation on ۳۱۰۰t jack press bed | Isfahan | Isfahan alloy steel |
| ۳۰ | Reforming operation on key way of ۳۱۰۰t base plate | Isfahan | Isfahan alloy steel |
| ۳۱ | Machining operation on housing bearing ۳۱۰۰t jack press vagon | Isfahan | Isfahan alloy steel |
| ۳۲ | Reforming operation on fix jaw of GFM | Isfahan | Isfahan alloy steel |
| ۳۳ | Reforming operation on coupling holes | Tehran | Navard ghataat fooladi |
| ۳۴ | Milling operation on rolling stand | Tehran | Navard ghataat fooladi |
| ۳۵ | Grinding of forging machine ۲۵ and ۶۵ connecting | Ispharayen | Ispharayen steel |
| ۳۶ | Boring and threading on M۶۴ of roughing roll | Rasht | Guilan steel |
| ۳۷ | Creating conical holes on foundry machine | Rasht | Khazar steel |
| ۳۸ | Machining on the hot rolling mill stands base | Ahwaz | Ahwaz pipe & rooling |
| ۳۹ | Welding and machining operations on bearing beds of gear box | Kerman | Kerman steel |
| ۴۰ | Machining operation on ۳۱۰۰ mm diameter of heating furnace flange | Isfahan | Safa steel |

| | | | |
|----|---|---------------------------------|---------------------------------|
| ٤١ | Metal spraying and grinding operations on travelling shaft | Ardakan yazd | Ardakan peletizing plant |
| ٤٢ | Grinding and polishing operations on thrust area of fan shaft | Ardakan yazd | Arf a steel |
| ٤٣ | Machining and lathing the edge of pinion shaft | Tehran | Navard ghataat fooladi |
| ٤٤ | Machining the seat bearing and motor of A,B,C fan | Isfahan | Mobarake steel |
| ٤٥ | Machining the bearing housing seat at mixer No ١١ | Isfahan | Mobarake steel |
| ٤٦ | Grinding the collar at fan shaft | Isfahan | Foulad Saba |
| ٤٧ | Welding and grinding the bearing housing at gearbox shell | Yazd | Iran alloy steel Co |
| ٤٨ | Machining the holes of heavy rolling stand coupling | Yazd | Iran alloy steel Co |
| ٤٩ | Repairing the tandish holes | Isfahan | behsazan |
| ٥٠ | Repairing the holes of furnace breaker machine by very fast method | Isfahan (Mobarake steel) | IRITEC |
